SUMMARY

Senior-year Systems Engineering student specializing in Backend Development, transitioning from IT Support. Possesses solid experience in Node.js, relational databases, and designing scalable APIs. Proven ability to translate complex technical concepts into clear, actionable solutions for non-technical stakeholders while maintaining high-quality standards in production environments.

SKILLS

Backend & Databases

Node.js, Express.js, RESTful APIs, System Architecture
MySQL, Prisma ORM, SQL Optimization

Frontend

React, Tailwind CSS, HTML, CSS, JavaScript (ES6+)

Infraestructura & Herramientas

Git, GitHub, Linux (Ubuntu), Postman, OpenAI API, Prompt Engineering

Idiomas

English (B2), Spanish (Native)

PROJECTS

TalentMatch AI (SaaS Platform) | Backend Architect & Project Manager | Remote

- Architected a scalable backend using Node.js and Express.js, creating modular services and RESTful APIs for a multi-tenant B2B SaaS platform.
- Designed and optimized the MySQL database using Prisma ORM, eliminating N+1 query issues through batch operations (findMany) and improving performance under high concurrency.
- Developed a semantic matching pipeline integrating the OpenAI API for resume analysis[cite: 1]. Implemented security measures including Helmet, rate limiting, and Zod payload validation to ensure API integrity and resilience.

Portfolio 2.0

A high-performance portfolio built with Next.js App Router and Tailwind CSS v4, featuring bilingual SEO optimization and an upcoming AI-driven chatbot integration to drive recruiter engagement.

EXPERIENCIA PROFESIONAL

IT Support & File Management

M&C Inversiones

- Managed and resolved hardware and software incidents, maintaining high system availability and efficiently troubleshooting issues under pressure.
- Translated technical processes to non-technical staff and management in a clear, structured manner, reducing operational errors and repetitive support requests.

01/2025 – Present
Santo Domingo,
Dominican Republic

EDUCACIÓN

11. Cuatrimestre

UTESA

B.S. Systems Engineering (Expected Graduation: 2026) | Sep 2022 – 2026 | Santo Domingo, Dominican Republic

09/2022 – Present
Santo Domingo,
Dominican Republic

- Currently in 11th trimester (Senior year), pending final thesis/capstone project.
- GPA: 3.7 (High Honors Trajectory).
