José Gabriel Pérez Calcaño

Backend Developer | Node.js | TypeScript | RESTful APIs

Santo Domingo Este, Dominican Republic josegabrielperezcalcano14@gmail.com

+1 (809) 714-1608 LinkedIn: im-jose josegabperez.com GitHub: JosePerez0314

Professional Summary

Systems Engineering graduate focused on backend development with Node.js and TypeScript. Hands-on experience with RESTful APIs, relational databases (MySQL, Prisma), LLM integration (OpenAI API, Claude) and production deployment with Docker and Linux (VPS). Tech Lead of a B2B recruitment SaaS and designer of an AI-agent video production system. Independently delivers IT services: support, identity management (Microsoft Entra ID) and SEO-optimized professional websites.

Technical Skills

- Node.js / Express
- TypeScript / JavaScript
- RESTful APIs
- Next.js / React / Tailwind CSS
- MySQL / Prisma ORM
- SQL (joins, indexes, TX)
- OpenAI API / Claude Code
- AI Agents / LLMs
- Docker / Containers
- Linux / VPS Admin
- Git / GitHub / Vercel
- Microsoft Entra ID / M365

Development Projects

TalentMatch AI — B2B HR SaaS
Backend · Frontend · Node.js · Express · TypeScript · MySQL · Prisma ORM · OpenAI API · React

- Built the complete SaaS backend: RESTful API architecture, MySQL database design with Prisma, and OpenAI API integration for semantic analysis of candidate profiles.
- Implemented the scoring engine that ranks candidates by fit for each job opening, automating the initial screening stage of the recruitment process.
- Led the development team as Tech Lead: code reviews, bug resolution and frontend coordination. MVP demoed to 5 initial users.

AI-Agent Short Video Production System (Freelance)
Claude Code · Node.js · TypeScript · Remotion / React · Whisper · FFmpeg

- Designed a six-agent AI workflow with defined contracts (strategy, scripting, editing, quality control and social media) and 33 skills, with human review at every creative decision. Implementation assisted by Claude Code.
- Extended an open-source Remotion editor so that scenes, subtitles and sound effects sync to the voice transcript (Whisper).
- Automated quality control with 30 measured checks (format, loudness, loop, safe zones) and measured token cost per task. 4 videos delivered, 2 published on social media.

OMEX Solution — Corporate Website (Freelance) — omexsolution.com
Next.js · React · Tailwind CSS · Technical SEO · Vercel

- Designed and built from scratch the website of a Dominican B2B office supplies and maintenance company, published to production, with technical SEO and responsive design. Managed the project independently: scope, quote, development, deployment and delivery.

Work Experience

IT Specialist & Web Developer *July 2026 – October 2026 (3 months)*
BCBLPRO (Pluton Legal) · Santo Domingo, Dominican Republic · Until the company ceased operations

- Designed, developed and deployed the company landing page (plutonlegal.com) from scratch with Next.js, Tailwind CSS and Vercel, mobile-first, with a lead-capture form.
- Provided technical support and independently administered the IT environment (25+ users): Microsoft Entra ID / M365, device join to Entra ID, least-privilege accounts and shared mailboxes per department.
- Carried out the network survey and data center plan (switches, firewall, UPS, VLAN, 20-camera IP video surveillance) and audited a third-party telephony/CRM system, identifying unrecognized accounts and visibility inconsistencies.

Technical Support *January 2025 – July 2026 (1 year 6 months)*
M&C Inversiones · Santo Domingo, Dominican Republic

- Provided technical support to 10+ users, quickly resolving incidents across systems, equipment and technology platforms.
- Helped modernize and configure corporate printers, reducing recurring incidents by more than 80% and improving operational continuity in the administrative area.

Education

Bachelor's Degree in Systems Engineering (Ingeniería en Sistemas) — Universidad Tecnológica de Santiago (UTESA)
Degree obtained · October 2026 · GPA: 3.7 / 4.0 · 2022 – 2026 · Santo Domingo, Dominican Republic

Certifications

Full Stack Web Development — Intermediate Level
Talento Digital · INDOTEL · IDB · CYMETRIA · 80 hours · January 2026 · Santo Domingo, Dominican Republic

Languages

Spanish: Native **English:** Intermediate (B1) — reading technical documentation and communicating ideas
